

## Reflection questions

1. Why is revisiting and revising a district vision for professional learning essential?
2. What role does “buy-in” play in advancing a vision and what are ways to achieve it?
3. How can an explicit focus on selecting and using high-quality instructional materials and curriculum in a vision statement improve professional learning?
4. What are other critical components of a vision for professional learning that will lead to results?
5. How will you use your vision statement to ensure that decisions made about selecting, modifying, and evaluating professional learning are evidence-based?
6. How can a district maintain and monitor progress toward achieving its vision of professional learning and focus on selection and use of high-quality curriculum and instructional materials?
7. How will working through this stage increase impact of Title IIA investments?
